Thanks again for your note and the follow up. I should be in the office for the next few days, and will look forward to hearing back from you at your convenience as to what will work best for the EPA team.

Fyi, I am headed to California on Thursday for a week with my family, so I hope that we can at least make a plan for this meeting before I leave town. I look forward to hearing from you soon.

Thanks.

Thanks for your message Alan - it was good catching up with you too.

We contacted Region 9 staff this morning and are working with them to suggest a couple of dates HQ and Regional staff would be able to meet, or to have a conference call. Expect we'll be able to get back to you by early next week with options. Thanks for your willingness to coordinate this discussion.

Have a great weekend Alan. Talk with you next week.

Best,

Greg

Subject: Technical meeting

Thanks again for taking the time to talk with me on Wednesday. As always, I appreciated your time and consideration.

And thanks for offering to talk to your folks in EPA Region IX to arrange a further meeting with the Hudbay/Rosemont folks about the technical aspects of the Rosemont project, its effects on the local hydrology and the possible benefits from Hudbay's proposed mitigation package. I have confirmed with my clients that they are ready, willing and able to participate in such a meeting at the earliest convenience of the folks from EPA Region IX, and that they are willing to join the meeting in Tucson, San Francisco or Washington, D.C., wherever it will work best for your folks (although they reiterated that it might make the most sense to meet in Tucson so that the group can go out into the field, if that proves to be helpful).

Please let me know when the meeting might be scheduled and where your folks would propose to have the meeting. Thanks for your assistance in setting up this meeting. I look forward to hearing from you at your earliest convenience.

Thanks.

Alan L. Mintz
